NEW Electric Fluid Transfer Pumps

Vapormatic has introduced two new electric fluid transfer pumps suitable for use with AdBlue®, diesel, kerosene, light oils, antifreeze water and mild detergents. The new range includes an IBC Pump Kit and a smaller portable pump kit for field based locations. Please see below for more information.

Portable Transfer Pump Kit – [VLB3090](#)

Versatile & portable pump (12-20v & AC Powered) suitable for use with AdBlue®, diesel, kerosene, light oils, antifreeze, water and mild detergent. Ideal for transferring from Intermediate Bulk Containers (IBC's).

Specification:

- Handheld nozzle for controlled dispensing
- 19 litres per minute flow rate
- 2m delivery hose & strainer
- Adjustable riser tube length 850-1245mm
- Choice of dispense nozzles and 2" NPS bung and buttress adaptors
- Includes 2m vehicle battery cable with HD connecting clips
- Requires 12-20 volt DC supply
- AC power adaptor

Compact Fluid Transfer Pump Kit – [VLB3091](#)

Compact & portable pump (3-12v & AC Powered) suitable for use with AdBlue®, diesel, kerosene, light oils, antifreeze, water and mild detergent transfer.

Specification:

- Handheld nozzle for controlled dispensing
- 9-12 litres per minute flow capacity
- 2m delivery hose, strainer, trigger nozzle and nozzle heads
- Riser tube length 467mm
- 2" NPS bung and buttress adaptors
- Includes 2m vehicle battery cable with HD connecting clips
- Requires 3-12 volt DC supply or 2 x "D" sized batteries
- AC power adaptor
