2018 JVC Radios Update

Vapormatic has introduced **five** new DMR (Digital Media Receiver) head units in to the audio range.

Most radios with Bluetooth® functionality are now Spotify® enabled, which means you can stream your Spotify® playlists straight from the head unit. Some radios also feature the ability to pair two devices at one time, as well as FLAC playback for excellent sound quality. VLC5783, VLC5782 and VLC5781 are short body DMR units, making them ideal for ATV vehicles or applications where space is at a premium.

In addition the 2018 Bluetooth® models also feature compatibility with the JVC App for iOS (iPhone & iPod) & Android devices, USB 1.5A high current charging for smart phones, auto pairing, and connectivity for up to 5 Bluetooth® audio devices.

Quick Reference Chart:

	FM/AM	Spotify®	USB	Aux-In	Android	iPhone	CD	Bluetooth®	DAB+
VLC5767 	✓	✓	1.5A	✓	✓	✓	✓	✓	✓

[VLC5782](#) – Bluetooth®, Spotify®, USB, Aux (Replaces VLC5769)

VLC5782 is a premium version of the short body digital media receiver range. Bluetooth® is added to complement USB music playback, for both Apple and Android smartphones. The large clear LCD display will show track, artist, and album data from your smartphone.

This receiver is fully compatible for Spotify® app playback and music search. Please note there is no CD mechanism included in this model, however, this does allow for a reduced depth of 100mm which will be more suitable for ATVs and agricultural vehicles.

Features:

- Bluetooth® Hands Free Call (HFP)
- Bluetooth® 2 Phones Full-Time Connection
- Bluetooth® Phone Book Access Profile (PBAP)
- Bluetooth® Voice Dialing (voice recognition compatible mobile phone required)
- Bluetooth® iPhone & Android Automatic Pairing
- Bluetooth® Audio Streaming & Control (A2DP, AVRCP)
- 5 BT-Audio Connection (JVC Streaming DJ)
- Spotify® Control (Android via Bluetooth®, iPhone via USB or Bluetooth)
- iPod/iPhone Music Playback
- Android Music Playback (AUDIO MODE and AUTO MODE)
- USB High Current 1.5A Charging
- FLAC Compatible (Up to 96kHz/24bit)
- JVC Remote Control App
- 11-Preset EQ
- 13-Band Graphic EQ
- Time Alignment
- Volume Link EQ
- Sound Lift
- Sound Response
- Space Enhancement
- Steering Remote Control Ready

[VLC5779](#) - USB, Aux, CD (Replaces VLC5770)

This is an entry level receiver with front USB for Android music playback plus AUX input jack for other portable music storage products. A large easy to read LCD display will show track, artist, album data from your Android smartphone or MP3 player. Steering wheel control option is included and a powerful 50 x 4 watt amplifier will boost your systems power output. Comes with red key illumination.

Features:

- Android Music Playback (AUDIO MODE and AUTO MODE)
- FLAC Compatible (Up to 48kHz/16bit)
- MP3 / WMA / WAV Compatible
- 3-Band Parametric Equalizer, 15-Preset
- Digital Track Expander
- Steering Remote Control Ready
- 1 RCA Preout, 2.5V (Rear/Sub Switchable)

VLC5781 – USB, Aux (Replaces VLC5768)

This DMR receiver includes front USB/AUX input, ideal for your iPod, iPhone, android smartphone or MP3 player. Steering wheel control option is included making it easy to switch function or channel whilst on the move and a powerful 50 x 4 watt amplifier will boost your systems power output.

This short body unit has a body depth of only 100mm, ideal for use in ATV's or where space is limited.

Features:

- Android & iPhone Music playback
- FLAC Compatible (Up to 48kHz/16bit)
- 3-Band Parametric Equalizer, 15-Preset
- Digital Track Expander
- Steering Remote Control Ready
- USB with 1A Charge for Smartphone
- 1 RCA Preout, 2.5V (Rear/Sub Switchable)
- Unit without CD mechanism
- Short chassis (100mm)
- Red Key Illumination

VLC5730 – CD, AUX

This entry level unit is compatible with MP3 and WMA files with ID3/WMA tags for song titles and artist names and has dual AUX input. You can enjoy crisp clear sound with 4 x 50W MOS-FET power amp and 24-bit DAC, adjust settings with iEQ presets and control a sub-woofer if installed.

Features:

- CD (MP3 / WMA Playback)
- AUX inputs front and back
- Red Colour key illumination with white display
- 3-Band Parametric Equalizer, 15-Preset
- Steering Remote Control Ready
- Radio Data System (RDS)
- Digital Processing Tuner
- Preset Stations 18FM + 6AM
- Strong Station Memory (for FM)
- Preout at 2.5V
- Steering wheel controls ready
